WDV101 Unit 3
Web Project - Adventure Travel Site
Create a three page website and style using CSS.

Adventure Travel is a small-group adventure travel company based in Billings, MT
that specializes in high-end, active vacations. The company has been in business for more
than 20 years, and the trips have been listed among the "World's 25 Best New Trips" by
National Geographic Adventure Magazine on multiple occasions.

They would like a new site with a new look. Using what you know about layout, create a
new site for this company. Download and use the content provided. You must use all the
content provided, though you may add content and images if you wish. How you
organize and layout the pages is entirely up to you. Be sure to include the following
criteria:

Complete the following:
1. Download and use the folder as your site folder.
2. Maintain proper file organization and naming convention for your pages.
3. Maintain proper html and css syntax.
4. Utilize an external CSS file for consistent style. Use embedded when/where it is
   needed.
5. **Layout:**
     • All pages must have a header, common navigation, and footer.
     • At least one page 2 column structure.
     • At least one page 3 column structure.
     • At least one instance where a div or section is inside a layout element.

6. Submit this assignment using the following method:
     1. Create a link to the index page of this site on your homework web page.
     2. Use FileZilla to upload both the homework page AND the travel_site folder to
        the WDV101 folder on your host server. Check the links to ensure they all
        work.
     3. Enter your domain name in the Text Submission area of this assignment on
        Blackboard.
